JMIR Form Res 2025;9:e71664; doi: 10.2196/71664

In "Evaluating Bard Gemini Pro and GPT-4 Vision Against Student Performance in Medical Visual Question Answering: Comparative Case Study" (JMIR Form Res 2024;8:e57592) the authors noted two errors.

Multimedia Appendices 1 and 2 contained identical files. Therefore, the Multimedia Appendix 1 file has been changed to the correct supplementary inference code.

Additionally, the "query" column of Multimedia Appendix 2 has been removed.

The corrections will appear in the online version of the paper on the JMIR Publications website on February 11, 2025, together with the publication of this correction notice. Because this was made after submission to PubMed, PubMed Central, and other full-text repositories, the corrected article has also been resubmitted to those repositories.

Multimedia Appendix 1

Inference code.

[ZIP File (ZIP archive File), 2 KB-Multimedia Appendix 1]

Multimedia Appendix 2

Responses from the models.

[ZIP File (ZIP archive File), 493 KB-Multimedia Appendix 2]
