The authors of "A Web-Based Stress Management Intervention for University Students in Indonesia (Rileks): Feasibility Study Using a Pretest-Posttest Design" [1] identified an error in reference 45. An incorrect reference was inadvertently included in the reference list.

Reference 45 previously appeared as:

> *Chen X, Wu H, Feng J, Li Y, Lv J, Shi W, et al. Transcriptome profiling unveils GAP43 regulates ABC transporters and EIF2 signaling in colorectal cancer cells. BMC Cancer. Jan 05, 2021;21(1):24. [FREE Full text] [doi: 10.1186/s12885-020-07728-x] [Medline: 33402155]*

Reference 45 has been replaced by the following:

> *Bangor A, Kortum PT, Miller JT. An empirical evaluation of the System Usability Scale. Int J Hum Comput Interact. 2008;24(6):574-594. [doi: 10.1080/10447310802205776]*

The in-text citation and reference numbering remained unchanged. This correction did not affect the results or conclusions of the article.

The correction will appear in the online version of the paper on the JMIR Publications website together with the publication of this correction notice. Because this was made after submission to PubMed, PubMed Central, and other full-text repositories, the corrected article has also been resubmitted to those repositories.
