

SAMPLE PACK

Here at Wrapped, we're pro condoms, pro pleasure.

But there's nothing pleasurable about a condom that's too tight, slips off, splits or irritates. Maybe the smell, texture, colour or taste also put you off. There's a huge variety out there, but most of us don't get the chance to try them all out. We've put together a selection of condoms and lube so that you can get familiar with what's out there and find the one that works for you. These packs are for everyone - whether you'd wear the condom yourself or put one on someone else - and advice on how to test them out is inside the packs. Go ahead and order your free pack now!
